DECLARATION OF LAURA WELLS

Mail Stop Petition
Office of Patent Legal Administration
Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

S I R:

I, Laura Wells, hereby declare as follows:

I am over the age of 18 and have been employed as the Intellectual Property and Technology Docket Department (IPT Docket) Manager of Sonnenschein Nath & Rosenthal LLP (SNR) since September 27, 2004.

Exhibit D is not a printout generated in the ordinary course of business but is the result of an extraction of responses due data for May 3, 2003 from SNR's IP Docket patent docket database. In accordance with the extraction criteria, it should contain all responses that were due on May 3, 2003 for patent matters handled by SNR. No physical copy existed prior to this data extraction request.

Exhibit E is not a printout generated in the ordinary course of business but is the result of an extraction of responses due data for June 3, 2003 from SNR's IP Docket patent docket database. In accordance with the extraction criteria, it should contain all responses that were due on June 3, 2003 for patent matters handled by SNR. No physical copy existed prior to this data extraction request.

Exhibit F is not a printout generated in the ordinary course of business but is the result of an extraction of responses due data for July 3, 2003 from SNR's IP Docket patent docket database. In accordance with the extraction criteria, it should contain all responses that were due on July 3, 2003 for patent matters handled by SNR. No physical copy existed prior to this data extraction request.

The docket system cannot today generate a due date report using the canned reporting functions of the system in view of the fact that only responses with open due dates are printed in such reports. Given that there are no open due dates for May 3, 2003; June 3, 2003 and July 3, 2003, only a blank report would be generated by the system's canned reports.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code; and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Laura Wells
